

SPACE MIST

SPRAY ADHESIVE
FOR ACOUSTIC FOAM MATERIALS

PLEASE SEE DIRECTIONS

By purchasing this product the user accepts responsibility for determining suitability of use. Universal Acoustics Ltd accept no liability for any loss or damage incurred whether direct or indirect in connection with the use of this product.

DIRECTIONS FOR USE

Materials to be bonded should be dry, clean, free from dust, loose materials, oil and grease. Cut foams should be free from silicone. Spray button should be set to the desired spray width: L = LOW, M = MEDIUM, H = HIGH. The aerosol should be held approximately 6 to 9 inches from the surface.

With lightweight materials a light coat applied to the least porous surface is advisable.

On heavier materials the adhesive should be applied to both surfaces and be allowed to tack-off.

For best results apply a layer of Space Mist to both surfaces and wait until an aggressive tack has developed before bonding together with firm pressure. To prevent nozzle from blocking after use invert can and press nozzle until spray is clear of adhesive.

Tack Life: 1-30 mins

Coverage: 5-7m² per can

Shelf Life: 12 months stored @ 4 – 25°C

The adhesive is non-staining.

DON'T USE ON EXPANDED POLYSTYRENE FOAM

500ml

SIGNAL WORD DANGER

Hazard statements: **H351** Suspected of causing cancer.
H224 Extremely flammable liquid and vapour.
H222 Extremely flammable aerosol.
H229 Pressurised container: may burst if heated

Precautionary statements:

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211 Do not spray on an open flame or other ignition source.
P241 Use explosion-proof electrical equipment.
P251 Do not pierce or burn, even after use.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
P501 Dispose of contents/container in accordance with national regulations.

Contains:

DICHLOROMETHANE

TRANSPORT INFORMATION: UN No: 1950

UN shipping name: AEROSOLS

Transport Hazard class: ADR class 2.2
